

International Journal of Modern Engineering Research (IJMER)

Volume : 16 Issue : 4

ISSN : 2249-6645

Jul.-Aug. 2026

Contents :

Comparative Analysis of Laboratory Soil Testing Productivity Across Five Locations: Insights into Bottlenecks and Optimization Strategies	01-11
Lessons Learned from Recently Constructed Stepped Spillways: A Review	12-18
Investigation on BaSi2O2N2:Eu2+ Phosphor with Blue-Green Emission for Optical Enhancements of WLEDs	19-25
Research on 3D Modeling Method of Herringbone Gearbox Based on Solid works Software	26-32
Electronically tunable OTA-based first-order APSs	33-39
Digital Transformation and Sustainable Urban Planning in Coastal Peripheral Regions: A Case of Wasior District, West Papua	40-51
Benchmarking Deep Learning Architectures for Agricultural Pathology: From Lightweight CNNs to Multimodal Large Language Models	52-58
Electronically tunable current-mode universal biquadratic circuit using current controlled unity gain cells	59-63
Robust Regression Analysis of the Relationship Between Cultivated Area and Dry Bean Production: Evidence from Konya Districts, Türkiye	64-71
Mechanism of Ginsenoside Rg3 in Endometriosis Based on Network Pharmacology	72-79
Screening of Anti-Gastric Cancer Active Compounds and Potential Targets of Pluchea indica Based on Network Pharmacology and Molecular Simulation	80-89
Design of HMI-Driven Cost Monitoring for EV Charging	91-99
Positive current output DVCC-based first-order APSs	100-103
